

Commonly Found Fish in South Florida Waters

Largemouth Bass

The largemouth bass is the most popular fish in the United States. The bass reaches up to 20 pounds and is usually olive green in color with brown mottling. The largemouth bass is found all over Florida, and throughout the southern part of the United States.

Bluegill

Bluegill, also known as bream, are one of the most common fish found in South Florida waters. Reaching up to 10 inches in size, they have an oval-like appearance and a multi-colored pattern.

Channel Catfish

Channel Catfish eat a variety of food and spend a majority of their time scavenging lake bottoms. A population of these fish is beneficial, helping to balance a lake's ecosystem. Catfish are easily recognizable by their "whiskers" and elongated bodies. They can attain weights of greater than 25 pounds. The "cats" are capable of gulping air from the surface when dissolved oxygen levels are low.

Grass Carp

Grass Carp, or white Amur, are a weed eating fish species originating from Asian waters. They are commonly used as biological control agents. The Florida Fish and Wildlife Conservation Commission, who issue permits for qualified waterway systems, regulate their stocking. Grass Carp have silvery, smooth scales and can grow to large sizes.

Mosquitofish

Mosquitofish are another beneficial species of native fish. They eat their body weight daily, consuming the larvae of mosquitos and aquatic midges. Due to its specialized diet, mosquitofish have been introduced throughout the World, especially in areas where West Nile Virus, malaria and yellow fever are prevalent. These fish are in the minnow family, reaching up to 1.5 inches.

Benefits OF Fish Stocking

Fish stocking can provide many benefits such as:

- Controlling:
 - Undesirable weeds
 - Mosquitoes
 - Frogs and toads
 - Midges (blind mosquitoes)
 - Insects and other aquatic pests
- Augmenting existing fisheries
- Creating new fisheries
- Providing a recreational asset for enjoyment

Whether it is triploid grass carp for weed control or largemouth bass for the avid angler, Allstate is equipped to handle all your fish stocking needs.
